COMPRESSED AIR TESTING

AIR TESTING MADE EASY!

OUR TESTING PROGRAM

TRI Air Testing, Inc. is an **AIHA Accredited Laboratory** specializing in the analysis of compressed breathing air testing. We provide compressed air analysis for a wide range of standards for commercial, medical, pharmaceutical, dive and fire service industries. These standards include but not limited to:

Industry Segment

General Industry Air Testing
Fire Service Air Testing
Sport Diving Air Testing
Commercial Dive Operations
Governmental Agency Air Testing

Air Specifications

CGA Grade D, OSHA 1910.134
NFPA 1989, CGA Grade D, E, L
CGA Grade E, PADI, IANTD, ANDI
NAVSEA, ADC, OSHA 1910.169, 1910.430
CGA Grade D, E, L, OSHA 1910.134

OUR TESTING PROGRAM OFFERS

- **Reliable 24 Hour Results**
- **Online Report Access**
- **Simple to Use Sampling Kits**
- **Onsite Moisture Testing**
- **Ph.D. on Staff**
- **Technical Staff Available After Hours**
- **Excellent Customer Service**

TRI LABORATORY ACCREDITATION

TRI's analytical laboratory has been accredited by the American Industrial Hygiene Association (AIHA) since May of 1980 (Laboratory Number 101505). The AIHA stringently reviews all quality aspects of the laboratory every two years. Their review includes evaluation of management, staff qualifications, training, equipment, laboratory space allotments, hygiene, safety, communication, records, equipment calibration, maintenance and repair.

SAMPLING KITS

The Champion 35 Test Kit

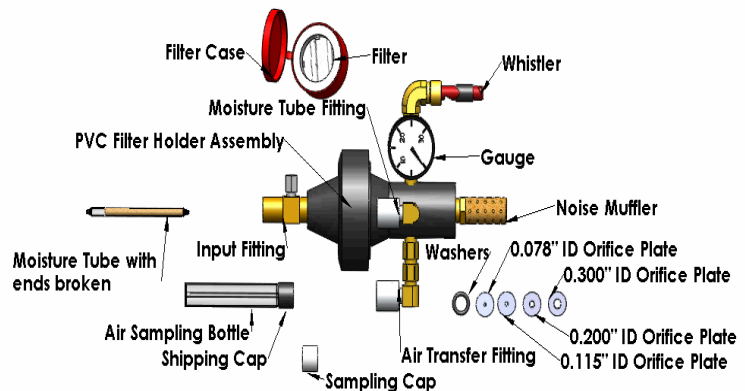

is available for purchase and we'll stock the kit with enough sampling media needed.

- TRI will mail you a postcard, reminding you to test on your predetermined schedule (optional).
- This also gives you the flexibility to have sampling media on hand at all times for sampling after maintenance/repairs or if a problem arises.
- You then return only the sample to our air testing laboratory for 24 hour results.

Lifetime Warranty and Annual Quality Check all at No Charge!

We provide you with a sampling kit to capture a sample of your breathing air and you return the sample to the lab for testing. Your results are then compared to your required air standard and reported. **Your air sampling results are available through our online report access but if you need your results emailed just ask!** Original laboratory reports are mailed within 72 hours. If you need faster than 24 hour turnaround just let us know!

We ship the kit to you, you take a sample and ship it back

IN THE LAB

Our analytical laboratory specializes in the detection and quantification of possible dangerous components of compressed breathing air.

Our routine air analyses include:

- Oxygen,
- Nitrogen,
- Carbon Monoxide,
- Carbon Dioxide,
- Total Gaseous Hydrocarbons,
- Methane,
- Moisture/Dew Point, and
- Oil Mist and Particulates.

Additional analyses are available upon request and include sulfur dioxide, nitrogen dioxide, halogenated hydrocarbons, halogenated solvents and fiber counts. Analysis of purity gases such as oxygen, carbon dioxide, nitrogen and nitrous oxide are also available.

Certificate Suitable for Framing

24 HOUR ONLINE REPORT ACCESS

As a TRI Air Testing customer, you have the ability to log-in to your account through a secure website giving you the ability to view and print your results online in a PDF format.

ORDER NOW

Place your order by calling us at (800) 880-8378 or visit our website at www.airtesting.com.

TECHNICAL ASSISTANCE AFTER HOURS

Our technical staff is available to answer your questions during regular business hours as well as evenings and weekends. After 5 pm or weekends call (800) 880-8378 ext. 159.

SPECIAL AIR & GAS TESTING

Not sure of what standard you need to test to? **Call or email us** and we can help. TRI has been in business for 33 years and our knowledgeable staff can help you determine what standards apply to your business from CGA to ISO to FDA or even USP or NFPA. We can also set up your own unique air or gas specification in our sophisticated database.

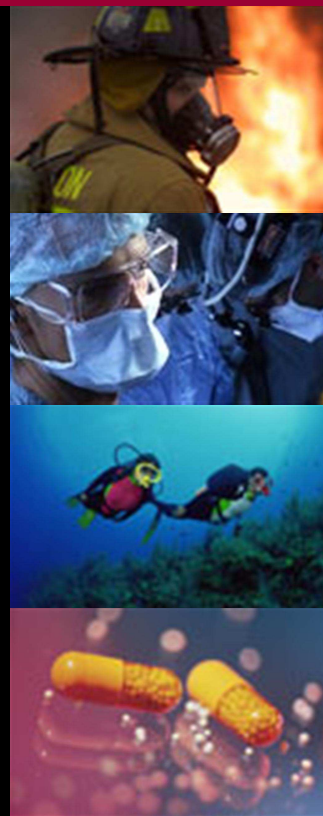

If you air and gas analytical needs include compliance with FDA Current Good Manufacturing Practices or if you need special air testing for a medical device, dental, instrument air, manufacturing, hyperbaric chamber and other unique requirements - contact the experts at TRI Air Testing, Inc. TRI has the capabilities to test to many different published air/gas quality testing specifications.

TRI DEALERS

Over the past 33 years, we have built a nationwide network of Dealers that carry our products and can service your air testing needs. You are more than welcome to contact a TRI Dealer in your area to come out and perform air testing services for your company. Our experienced Dealers routinely provide air testing along with compressor maintenance and/or sales of safety products. Send us an email at airinfo@airtesting.com and we will help you find a Dealer in your area.

You have options with TRI to choose the best solution suited for your business. If you are interested in becoming a TRI Dealer, please send us an Email at airinfo@airtesting.com.
